This practice sheet is due every Monday. Every time you practice your instrument on your own, outside of class, record the number of minutes practiced. Each practice must be at least 20 minutes. You may practice at school at lunch or after school, or at home by checking out your instrument. If you practice at school, one of the music teachers must initial your practice sheet next to the time practiced. A parent signature is required for every week practiced, even if you only practice at school. Use the back of this practice sheet to record your weekly practice goals.

Beginners are required to practice 3 times a week, and will receive 100 points for three practices, 85 points for two practices, and 78 points for one practice.

Second-year players are required to practice 4 times a week, and will receive 100 points for four practices, 85 points for three practices, 78 points for 3 practices, and 70 points for one practice.

Chamber Orchestra and Wind Ensemble students are required to practice 5 times a week, and will receive 100 points for five practices, 85 points for four practices, 78 points for three practices, 73 points for two practices, and 70 points for one practice.

Jazz students are required to practice 2 times a week, 100 for two practices, 85 for 1 practice. Extra credit for extra practices will be determined by your music teacher.

Late practice sheets will be graded down, so turn them in on time! No practice sheets will be accepted after the end of each 5-week grading period.
